

WhisperMural™ & WhisperArt™ by Whisper Walls®

Beauty and Acoustical Control...

WhisperMural™ and WhisperArt™ are a designers dream. When it comes to eliminating unwanted noise without limiting your design to standard acoustical wall and ceiling panel products, WhisperMural™ and WhisperArt™ are the solution.

Whisper Walls® has combined our superior acoustical control products, the Whisper Walls® fabric stretching system and our specialized high resolution imaging process to create beautiful works of art that eliminate unwanted noise.

Fine art, photography, digital graphics, or any image are now an integral and functional addition to the designers pallet.

*No Limits... Set Your Imagination Free.
Any image, Any Size, Any Shape...*

WhisperMural™

No Limits... Set Your Imagination Free.

Superior Quality and Endless Design Possibilities...

WhisperMural™ adds beauty and acoustical control to any space. WhisperMural™ is a site built acoustical wall and ceiling product that conforms to and becomes a part of the wall or ceiling. WhisperMural™ is not limited in any way including size, shape, image or colors which opens the door to endless design and theme possibilities. With WhisperMural™ a designer, architect or acoustical engineer can fine tune the acoustical properties within a space using the Whisper Walls® system and then cover it all with a beautiful WhisperMural™ image.

All the services you need to create the perfect image...

The WhisperArt™ team at Whisper Walls® is equipped to handle all of your art and design needs including all of the products and services to create the perfect image for your design. Our professional team can put together the entire package including design, scanning, consultations, image and artist locating, anything you need.

Go beyond the ordinary...

WhisperArt™

by Whisper Walls®

No Limits... Set Your Imagination Free.

Visual inspiration and functionality...

WhisperArt™ is the easiest way to add beauty and acoustical control to any space. WhisperArt™ is a combination of our specialized high resolution imaging technology, Whisper Walls® acoustical control products and our fabric stretching system.

WhisperArt™ comes to you fully assembled and ready to hang on a wall as you would a painting. WhisperArt™ can be generated from any high quality image including Fine Art, Photography, Digital images, etc. and produced at any size to fit the space perfectly.

WhisperArt™ is a designers dream for updating or decorating any space and solving unwanted noise problems in one step. It is perfect for residences, restaurants, hospitals, places of worship or virtually any interior space.

Easy to change or update...

WhisperMural™ and WhisperArt™ images are easily updated or changed by replacing the images only, the acoustical cores and the stretching systems stay in tact and never need to be replaced.

...way beyond the ordinary.
